Compliance & Privacy Planning

Our Compliance & Privacy Planning service allows organizations to develop high-level strategies and plans in order to meet industry and legal requirements. Beginning with requirements gathering and moving into legal analysis, we create a strategic process to address compliance issues, assess business risks, and enable new initiatives.

Compliance & Privacy Assessments

Our Compliance & Privacy Assessments is an evaluation of existing controls and services to ensure that you meet industry laws and regulations. This assessment will assess your current security and Compliance & Privacy position, the desired status based on industry and legal requirements, and identify the steps to achieve your security and Compliance & Privacy goals.

Compliance & Privacy Awareness Training

Our Compliance & Privacy Awareness Training service programs offer companies a variety of on-site Compliance & Privacy training opportunities. We focus on general Compliance & Privacy and security awareness to specific industry Compliance & Privacy legal issues. We strive to make Compliance & Privacy and security training rewarding, educational and stimulating.

Compliance & Privacy Compliance Program Management

Our Compliance & Privacy Compliance Programs offer services from program management to detailed implementations. Our across the board compliance services are designed to implement and enhance Compliance & Privacy and security controls in order to meet industry laws and regulations. We ensure that your compliance programs are designed to address risk while taking into consideration business needs.
